

SLEEPY'S KURANDA COLLECTION

EXCLUSIVE TO
Sleepy's
The Mattress Experts

Introducing the Kuranda Collection, for a mattress inspired by nature. The pairing of layered pocket spring units and natural latex creates a cushioned sleep surface that will support your back, night after night.

sleepys.com.au

PARTNER DISTURBANCE

Individual coils in pocket spring units provide contour and support to fit your body and reduce motion transfer across the mattress. The 5 zoned pocket spring system ensures that the whole body from head to toe is supported. With the Kuranda Collection you can enjoy a rejuvenating night's sleep without the hassle of back or joint pain.

TEMPERATURE MANAGEMENT

To manage your temperature all night long, the Kuranda Collection is designed to reduce heat build up to help neutralise your body temperature throughout the night, using bamboo charcoal infused visco and gel infused latex.

BREATHABLE FEATURES

With insulating properties wool and Tencel materials are used in the top panel to ensure breathability in the mattress. To maximise this breathability, bamboo charcoal infused visco is placed in the comfort layers.
